

**Tell the Montana Department of Fish Wildlife & Parks:
Require Hunters and Trappers to Carry Readily Accessible Bear Spray in Grizzly Habitat**

We the undersigned support the petition submitted to the Montana FWP on July 21, 2026 by nineteen Montana organizations and 46 individuals to adopt rules that would require hunters and trappers to carry readily accessible bear spray when hunting or trapping in grizzly bear habitat. The primary purpose of the proposed rule is public safety and to avoid death and injury to people and to prevent the death of grizzly bears, the official State Animal of Montana.
